

TRAN-SIT™

CAR TRANSFER SIMULATOR

Time and convenience is important in your car transfer training program. The **TRAN-SIT®** Simulator allows your patients to learn and practice car transfer skills in the year-round comfort and safety of a clinical setting.

The **TRAN-SIT®** Simulator is loaded with features. True-to-life vehicle components like functional doors, real bucket seats, tilt steering column and wheelchair loading space make the **TRAN-SIT®** look and feel like a real car. The “open back” design makes training easier for both you and your patient.

The **TRAN-SIT®** is quality constructed to provide years of active use and consistent performance.
